Catholic Community Foundation 2006-2007 Annual Report

"Beyond the benefits of higher academic achievement, the integration of life with religious truth and values from other schools. Education is one of the most important ways by which the Church fulfills its commitment to the person and building of community. Community is central to education ministry."

National

The mission of the Catholic Community Foundation is to enhance the financial strength of the Regina Inter-Parish Catholic Education Center

As Catholics we believe we are all one church family and that we

are responsible for educating our future Church and community leaders in the doctrine of our shared faith.

In 2008, Regina will celebrate its 50th anniversary. We ask members of Regina's extended family—parents, grandparents, alumni, parishioners, and other friends to pray that the next 50 years will be as successful as the first 50. As we are grateful for the sacrifice, foresight and generosity of those who built the school, let us hope that in 50 years the community will be equally thankful for our stewardship of this precious gift.

Individually we can make a difference, but collectively as a Catholic Church family our accomplishments are limited only by our dreams.

Tom Carroll
President
Catholic Community
Foundation Board

Extension of Home and Parish

Philosophy

The Regina Inter-Parish Catholic Education Center, in cooperation with parents and parishes, strives to provide a value-centered Catholic education rich in both academic excellence and witness of the Gospel message.

Regina believes that by integrating these principals, students will be prepared to relate Christian values to everyday life and meet human needs:

- † Catholic Doctrine
- † Religious Celebration
- † Christian Service
- † Academically Excellent Curriculum

Regina builds a school community where learners grow in:

- † Knowledge
- † Self-esteem
- † Spirituality
- † Respect for Others
- † Social Responsibility

Spirituality/Service

Regina students often participate in the liturgy and the sacraments, which are powerful forces for the development of personal faith growth and for the building of community. The educational mission of the Church is taught, modeled and lived daily in Regina's halls and classrooms: fellowship in the life of the Holy Spirit, service to the Christian community and the entire human community.

Service at Regina is an expectation, not an option. Students are called to answer the question Jesus, himself, posed, "I was hungry, I was thirsty, I was naked. What did you do about that?" Additionally, Regina students are challenged to understand the profound relationship between faith and culture.

Academically

Catholic schools are unique religious communities within academic communities.

That **does not** mean they are inferior scholastically. Quite the contrary. Regina integrates thinking and believing in ways that encourage intellectual growth, nurtures faith, and inspires action.
